

What “direct access” to Imagine providers means for you

With your Imagine Health providers, you can count on direct access to quality healthcare, including world-class Penn Medicine facilities, thanks to:

- No referrals required to see a specialist, visit the emergency room, etc.
- No charges for covered services beyond your plan’s co-payment or co-insurance amount when you visit any of our...

7 highly rated hospitals

50+ outpatient locations

10 multi-specialty centers

5,000+ primary care physicians and specialists

While it’s true that you can depend on us for price protection wherever you go, many of our members have switched to an Imagine provider. For primary care and beyond, the convenience and peace of mind are unparalleled. Find Penn Medicine and other Imagine provider facilities near you with our [provider search](#).

Reap the many benefits of patient-centered care

Have you ever wished that doctors were more connected to each other? Are you tired of recounting your entire health history whenever you see a different specialist?

Penn Medicine agrees that healthcare providers should be more connected to each other and, most importantly, to you! Penn’s [10 multi-specialty centers](#) are prime examples of a more coordinated approach to healthcare. By having primary care physicians, specialists and diagnostic testing together in one place, all of your providers can more easily work together to deliver the best care for your needs.

Staying in touch with your own healthcare is also easier thanks to [myPennMedicine](#). It gives you secure access to the information you need most right from your mobile device. Keep up with refills, see test results, request or schedule future appointments, and more.
